## PROFESSIONAL STATEMENT

Emerging Interior Designer on the path of certification with a passion for creating intuitive and unique designs. Dedicated to improving the built environment through Aging in Place, Universal Design, and sustainable principles.

## WORK EXPERIENCE

### Interior Designer

*Bergmann, Rochester NY | May 2021 - Present*

- Collaborates and supports project teams and designers in developing creative design solutions for commercial, workplace, municipal, and science/technology projects.
- Prepares construction documents including floor plans, reflected ceiling plans, interior elevations, details, and furniture plans.
- Collaborates with project engineers, architects, designers, and project managers to meet deliverable milestones.
- Participates and creates client presentations for schematic design, design concepts, and material selection.
- Conceptualizes and develops material selections for workplace interiors.
- Introduced to field work including the completion of punch lists and reviewing ADA code compliance.
- Manages material library and works closely with material representatives to stay informed on interior solutions.
- Introduced to writing performance specifications.
- Develops conceptual visuals for proposals.
- Develops interior and exterior renderings to create visuals to enhance understanding of material selections for clients.

### Interior Design Classroom Assistant

*Rochester Institute of Technology | Jan. 2021 - May 2021*

- Taught interior design freshmen SketchUp for developing 3D views, elevations, and floor plans for exterior and interior projects.
- Assisted with class presentations on design strategies for creating project presentation boards.

## RESEARCH

### Interior Design Senior Capstone Project

- Investigated a research agenda through quantitative and qualitative data about the pandemic's impact on public transit.
- Extracted evidence from research and developed a guidebook that could be applied to various transit environments that reimagine the design and experience of public transit.

### MOBILE KITCHEN | MO:KI

- A multi-disciplinary collaboration between RIT Interior and Industrial Design Majors.
- Developed and made unique product solutions for the kitchen to help people overcome functional limitations and improve social connectedness through universal design principles.
- Participated in concept ideation, research, modeling mock-ups, and millwork construction.
